RAJNISH KUMAR TIWARI

Software Developer

📞 +91-95729-73654   ✉ rajnishkumartiwari260@gmail.com

ABOUT ME

I am a beginner software developer with a strong interest in coding and building websites. I have learned programming languages like HTML, CSS, JavaScript, and React and Node.js. I enjoy learning new things and solving problems. I am looking for an opportunity to grow my skills and work with a good team.

PROJECTS

Tanish LMS – Learning Management System

Tanish LMS is a web-based Learning Management System built using the MERN stack. It allows students to access courses, watch video lectures, and track their learning progress. Admins or teachers can upload courses, manage content, and monitor student activity. The system is user-friendly, responsive, and secure.

Live Demo: https://lms-786c.onrender.com/

Tanish Food App

Tanish Food App is a web-based food delivery application built using the MERN stack. It allows users to browse different food items, add them to their cart, and place orders easily. Admins can manage the menu by adding, updating, or removing food items and track orders. The system is designed to be user-friendly, responsive, and secure.
